

Hit The Spot

Leslie Mendelson

What's the fuss, people talking
I know they're thinking that there's
Something ain't right And when they ask me
I just smile and blush
They want to know
But I ain't gonna give it to 'em babe 'Cause when we get together
There's something in the air
I used to fight it but now I just don't care How did you do it?
I never understood
How further education
Could ever feel this good Crossing every t
Connecting every dot
You don't even know what you got
Baby, how'd you hit the spot? We're stealing kisses in the corner
Can I make a plea?
Got no time for inhibitions baby
This drink's on me Tell me what you're having
Come on let's make it two
We got so much to talk about
Before the night is through 'Cause when we get together
There's perfect chemistry
Anyone can feel it, anyone can see How did you do it?
I never understood
How further education
Could ever feel this good Crossing every t
Connecting every dot
You don't even know what you got
Baby, how'd you hit the spot? Like the archer hit the apple babe
Like a bullet straight through the heart
'Cause when we get together
There's perfect chemistry
Anyone can feel it, anyone can see How did you do it?
I never understood
How further education
Could ever feel this good Crossing every t
Connecting every dot
You don't even know what you got
Baby, how'd you hit the spot?
