Trouble

Totally Enormous Extinct Dinosaurs

Come and dance beside me, let you go
Try and stop me, telling all these lies
Trouble with the only thing I know
I can see the games i've lost in your eyes(chorus)Now you've got me messed up, please belive me
Look's like thats done, you will all be leaving now
You make me happy
I'm in trouble nowSomething tells me this wont go away
Take me home and put me out of sight
Trouble is the order of the day
For the record look I'm wrong and your right(chorus)Now you've got me messed up, please belive me
Look's like thats done, you will all be leaving now
You make me happy
I'm in trouble now(chorus)Now you've got me messed up, please belive me
Look's like thats done,you will all be leaving now
You make me happy
I'm in trouble now
