

# My Damnation

## Static-X

Time to take control  
(I control this)  
It's harder than you know  
(I got to change this)  
Feel the muscle twitch  
(It's electric)  
When you let it go Feeling primitive  
(In my dark room)  
Pounding in my head  
(Creeping silence)  
They will never know  
(All the secrets)  
Better left unsaid Always the same and  
I didn't know you were  
Taking what's mine  
I can see it show through  
Waiting to break me  
'Cause everyday  
It's my damnation Take another step  
(Look around me)  
All that I have left  
(Taken from me)  
Things that could have been  
(Are forgotten)  
Haunting me again Set it my own ways  
(Never changing)  
Make it through the day  
(Rearranging)  
Nothing more to lose  
(I can tell there's)  
Nothing more to say Always the same and  
I didn't know you were  
Taking what's mine  
I can see it show through  
Waiting to break me  
'Cause everyday  
It's my damnation Always to blame you  
You crucified me  
Leave it behind

I can't take this hating  
I'll make it go away  
And everyday  
It's my damnationGo ahead, you throw the dirt  
You tried to make it hurt me  
Everything, everything  
Everything breaking meAlways the same  
Always the same  
Always the same  
Always to blame  
Always the same  
Over and over  
It's my damnationAlways the same and  
I didn't know you were  
Taking what's mine  
I can see it show through  
Waiting to break me  
'Cause everyday  
It's my damnationAlways to blame you  
You crucified me  
Leave it behind  
I can't take this hating  
I'll make it go away  
And everyday  
It's my damnationAlways the same and  
I didn't know you were  
Taking what's mine  
I can see it show through  
Waiting to break me  
'Cause everyday  
It's my damnationAlways to blame you  
You crucified me  
Leave it behind  
I can't take this hating  
I'll make it go away  
And everyday  
It's my damnation
