

Rebel Heart

The Shelters

[Verse 1]

She's up against them all
But the writings on the wall
There's more than meets the eye with her
Nothing I can do, I'm left without a clue
She sees it all in black and white, or blue[Chorus]

She's got a rebel heart
One day she's gonna burn
She's got a rebel heart
She's up against them all

[Verse 2]

No, she never will admit
That what you want you never get
She never knows when to quit
I started up the strikes
Crossing all the fine lines
Could see it in her painted eyes[Chorus]

She's got a rebel heart
One day she's gonna burn
She's got a rebel heart
She's up against them all[Verse 3]

She don't seem to understand
What she wants to do
Light on fire, hit and run
Like the rebels do[Bridge]
She wants to overthrow our love
Maybe too much ain't enough
And we won't make it out alive

She's got a rebel heart
She's had it from the start
Out there on the run again[Chorus]
She's got a rebel heart
One day she's gonna burn
She's got a rebel heart
She's up against them all
