

# Unforgivable

## Attila

Unforgivable, your life is meaningless you motherfucker  
How does it feel to be alone for a lifetime?  
Forced to eternal damnation and guilt in your own mind.  
This went on for way too long but nobody here had the balls to confront you  
you'll always get what you deserve,  
so sit down bitch and know that you've been served  
Stay awake and reflect on this, keep toss and turnin  
Fuck you  
Watch me sit here and think about trying  
some kind of post-life abortion  
How should I execute my feelings of hatred towards you,  
Soon enough we will both have answers,  
Don't get excited, Ha.  
I prefer another form of torture watch your conscious suffer,  
Let the silence hurt your soul and I will laugh  
You're sitting here begging and I'm just like....  
I don't give a fuck about you  
So shut up  
Do you fucking understand?  
Try to forget it but I left scars and they are everlasting  
Try to forget it but I won't leave your head and I'm afraid you'll suffer worse If I just  
execute as planned  
I leave your mind to take the hit as  
Punishment for all the shit you said and all the people you hurt in life, you're fucked.
