

# Dystopia

## Freak Kitchen

How many died? How many were injured?  
Is this the grossest the you ever heard?  
Maybe someone is gonna fry on death row?  
We need to know, we need to know Who can we hang for irresponsibility?  
Where is the fucker who's in charge of security?  
We need a scapegoat, and we need it now  
Get it somehow, get it somehow I ain't heading for Dystopia  
There's no way you can drag me to Dystopia  
I ain't heading for Dystopia  
There's no way you can drag me to Dystopia Have we got pictures of all the deceased?  
It's getting even better:  
The numbers just increased  
Make sure it's bloody when we're on the air  
We really care, we really care The more details, the better off we'll be  
We never stop, you have the right to see  
It's our duty and we serve it well  
Let's go to hell, let's go to hell I ain't heading for Dystopia  
There's no way you can drag me to Dystopia  
I ain't heading for Dystopia  
There's no way you can drag me to Dystopia If it don't bleed, it don't lead  
If it don't bleed, it don't lead I ain't heading for Dystopia...
