# For You

## Nude Beach

The reasons that I love her, I can't describe
It's just the feeling that I get when we're alone at nightWell now there's nothing at all in this world
If I had hers to hold
Because I'm nothing at all in this world
It's that everything I do I do for youSo many people let themselves get pushed around
Living in envy of the people that have been living upside downBut I am nothing at all in this world
So I don't let it get me down
Because I'm nothing at all in this world
It's that everything I do I do for youThe reasons that I love her, I can't describe
It's just the feeling that I get when we're alone at nightWell I am nothing at all in this world
If I had hers to hold
Because I'm nothing at all in this world
It's that everything I do I do for you
Everything I do I do for you
Everything I do I do for you
