

# Cant Even Breathe

## Deftones

I can't breathe and arrive with style  
I'm still a sucker, feeding it pills  
With wine, it's tricky how I'm pushin' you back but still you ain't gone  
Pushing you back but still you ain't gone  
Pushing you back but still you ain't gone It makes some sense look  
I can't breathe and her eyes are dry  
But still I will fuck her to keep alive  
Plus my arms are still broke but watch me Push you back but still you ain't gone, go  
Pushing you back but still you ain't gone  
Pushing you back but still you ain't gone It makes so much sense oh God  
She's gone, gone, gone, it's so sad  
Wait up I'm a wait right here, right here  
It's just gonna wait for me right here It's funny how it goes think I'll sometimes  
Yes to all the fuckin' world, one minute  
One minute ago, there's just one minute ago  
I remember I was all that, gone, say you ain't still  
Gone, gone, gone, gone I can't breathe and arrive with my style  
So watch you watch me fuck her just  
One more time, wait till my arms heal And I'll, push you back but still you ain't gone  
Pushing you back but still you ain't gone  
Pushing you back but still you ain't gone  
I'll fuckin' push hard Pushing you back but still you ain't gone  
Pushing you back but still you ain't gone  
Pushing you back but still you ain't gone  
It makes no fuckin' sense
