I Know It Hasn't Been Easy

Straylight Run

I never to meant to make it any worse
What have I done?
What have I done?
I didn't know then and I still don't know now
Two years have gone by
Two years have gone
And I know it hasn't been easy on you
Voices are pulling in every direction
I know it hasn't been easy on you
But everything's changing
Do you believe
Don't you believe
Do you even want it
Do you even want it
Your heavy head is holding you back
What is it worth?
What is it worth?

Oh I know it hasn't been easy on you
Voices are pulling in every direction
I know it hasn't been easy on you
but everything's changing
And it's getting harder to take
It's getting harder to take
(It's getting harder to take)
It's getting harder to take
(It's getting harder to take)
I know it hasn't been easy
I know it hasn't been easy
I know it hasn't been easy
(I know)
I know
(I know)
I know
(I know)
I know
