

# Magnetic

Jessie J

Light up, don't know how I did it right from the beginning, my head's kinda spinning  
Light up, I won't be forgiven, my life is forbidden, they say it's a miracle  
Sometimes I don't even know if I'm wrong or right  
I try to drown the sorrow that surfaces every night  
I'm moving at a speed that makes everybody look slow  
What happens if I let it go But There ain't no way you're pulling me down  
I recharge the speakers and sound  
It's okay, it isn't your fault  
Everything is alright Take me to a place I know  
Anywhere that feels like home  
Somewhere that if I let go  
Someone's gonna catch my soul Magnetic (I've never lived life, but steady as I go)  
Here we go! (The sky is the limit as long as it feels good)  
Magnetic (I've never lived life, but steady as I go)  
Here we go! (The sky is the limit as long as it feels good)  
Here we go! Show me love, sometimes when you give it you don't always get it  
That's all that you wanted  
Angels, watch like television  
Got over my mission, so I gotta finish up Sometimes I don't even know if I'm wrong or right  
I try to drown my sorrow that surfaces every night  
I'm moving at a speed that makes everybody looks slow  
What happens if I let it go But there ain't no way you're pulling me down  
I recharge the speakers and sound  
It's okay, it isn't your fault  
Everything is alright Take me to a place I know  
Anywhere that feels like home  
Somewhere that if I let go  
Someone's gonna catch my soul Magnetic (I've never lived life, but steady as I go)  
Here we go! (The sky is the limit as long as it feels good)  
Magnetic (I've never lived life, but steady as I go)  
Here we go! (The sky is the limit as long as it feels good)  
Here we go! Vampires and beasts lick tears from my cheeks  
I won't hide, behind tweets  
And smiles for life Take me to a place I know  
Anywhere that feels like home  
Somewhere that if I let go  
Someone's gonna catch my soul Magnetic (I've never lived life, but steady as I go)  
Here we go! (The sky is the limit as long as it feels good)  
Magnetic (I've never lived life, but steady as I go)

Here we go! (The sky is the limit as long as it feels good)  
Here we go!
