# Isolated

## Morgoth

I feel no pain
I walk right through
A no where man
Learned from youYou get the one that you wished for
You laugh to cry
I guess the one that you wished for
Has made you cryI told you, some way
So quick to rename
IsolatedMy grip is good
I fall to stand
A smile that could
Screams out a planYou get the one that you wished for
You laugh to cry
I guess the one that you wished for
Has made you cryI told you, someway
So quick to rename
You're weary, no soul
So quick to rename[Incomprehensible]I told you, some way
So quick to rename
You're weary, no soul
So quick to renameIsolated, isolated
Isolated, isolated
Isolated
