You and Me

Wayne Brady

The lawyer's talkin, I cant hear
Thinkin back when did we go wrong?
Cant make the past just disappear
Weve got this baby, lets be strongAnd I know well move on with our lives
But I know that well be just fineCause shes got your eyes
And that crooked smile of mine
So therell always be you and I
And though things have changed
One thing remains the same
Well still be a family
Even if theres no you and meAnd babys askin everyday
Daddy, when you gonna come home?
And it breaks my heart to say
Mom and dad is movin onBut shell know were both in her life
And our family will be just fineCause shes got your eyes
And that crooked smile of mine
So therell always be you and I
And though things have changed
One thing remains the same
Well still be a family
Even if theres no you and meTill death do us part, that was the vow
Oh, but look at us now
Whatever may come
Just look what weve doneShes got your eyes
That crooked smile of mine
So therell always be you and I
And though things have changed
One thing remains the same
Well still be a family
Even if theres no you and meWell still be, be a family
