Levelland

Robert Earl Keen

Flatter than a tabletop

Makes you wonder why they stopped here

Wagon must have lost a wheel

Or they lacked ambition oneOn the great migration west

Separated from the rest

Though they might have tried their best

They never caught the sunSo they sunk some roots down in the dirt

To keep from blowin' off the earth

Built a town around hereAnd when the dust had all but cleared

They called it Levelland

The pride of man in LevellandGranddad grew the dry land wheat

Stood on his own two feet

His mind got incomplete

And they put in the homeDaddy's cotton grows so high

Sucks the water table dry

But rolling sprinklers circle round

Bleedin' it to the boneAnd I won't be here when it comes a day

It all dries up and blows away

I'd hang around just to seeBut they never had much

Use for me in Levelland

They don't understand me

Out in LevellandAnd I watch those jet trails

Carving up that big blue sky

Coast to coasters watch 'em goAnd I never would blame 'em one damn bit

If they never looked down on this

Not much here they'd wanna knowJust Levelland

Far as you can point your hand

Nothin' but LevellandMama used to roll her hair

Back before the central air

We'd sit outside

And watch the stars at nightShe'd tell me to make a wish

I'd wish we both could fly

Don't think she's seen the sky

Since we got the satellite dishAnd I can hear the marching band

Doin' the best they can, they're playing

"Smoke on the Water", "Joy to the World"I've paid off all my debts

Got some change left over yet

And I'm gettin' on a whisper jetI'm gonna fly as far as I can get from

Levelland, doin' the best I can

Out in Levelland, imagine that
