

# Overt Enemy

## Slayer

{ Wart, holocaust thats God's wrath  
It's a man's war against himself  
It's God's war against man is holocaust  
And what's coming now is God's war against man  
It's God's war against man's war  
Wart, holocaust thats God's wrath  
It's man's war against himself  
It's God's war against man is holocaust  
And what's coming now is God's war against man }  
I breach your life, indoctrinate  
Police your thoughts, ask why I hate?  
I lose control when I see your face  
Abusing power I infiltrate  
Continue lies, then masturbate  
I walk the line, I'll do no time  
I hate your church, I'll burn your state  
A bleedin' heart, a seal of fate  
There is no crime within my mind  
I'll sell your life and preach your death  
A wicked plan born of contempt  
Bleeding my ideology through pain  
Audacious plans I calculate  
A new world view I'll reinstate  
Don't cross my path or I'll see you burn  
You'll meet your end find death alone  
No grave to mark the seeds you've sown  
You've pushed too far my secrets I defend  
  
I'll sell your life and preach your death  
A wicked plan born of contempt  
Bleedin' my ideology through pain  
Demonize what is feared, profane architect  
Skull and bones through the mind, barbaric thoughts of old  
Celebrate all unknown at last the head await  
The die is cast for the meek inherit endless dead time  
Smell the victims are near, consume the catalyst  
Hunting masses for game, implanting septic thoughts  
Reaping terror through words while armed behind your back  
Pseudo leaders betray enslaving all of mankind

Cast out the demi God  
Dethrone the demagogue  
Cast out the church of God  
Demonize what is feared profane architect  
(Cast out the demi God)  
Skull and bones through the mind barbaric thoughts of old  
(Dethrone the demagogue)  
Celebrate all unknown at last the head await  
(Cast out the church of God)  
The die is cast for the meek inherit endless dead time  
(Cast out the demi God)  
I command your life and I don't care  
Let bullets rain from everywhere  
No suicide will save you from yourself
