Nebula (Scream)

Chris Jay

Greetings JÃ¤y

Blast off, baby
Your body got me going crazy
I'll take you for a trip
Welcome to my spaceship

You are so excited
Girl don't get me, get me started
Play in your curly hair while I hit it right there
Put your phone on airplane mode
No distractions here we go
On the bed and on the floor
I'ma take it slow

'Cuz girl when I
(Knock it out bang-bang)
You'll see, what's in front of you
It's just me, it's just me
Don't you be afraid
It's alright, it's alright
Tonight I'll take good care of you
When I make your body

Scream
Girl go 'head and
Scream
Girl go 'head and
Scream (You love it, you love it)

Tonight I'll take good care of you
Girl go-girl go
Scream
Girl go 'head and
Scream
Oh you 'bout to
Scream (You love it, you love it)
Tonight I'll take you to the moon

Blast off, hold on

Age don't mean a thing
When I get those clothes off
We're going to a place where you love
(Check it)
You move, so exotic
Girl don't get me
I just wanna' put it down
I just wanna' put it (down, down, down)

'Cuz girl when I
You'll see, what's in front of you
It's just me, it's just me
Don't you be afraid
It's alright, it's alright
Tonight I'll take good care of you
When I make your body...

Scream
Girl go 'head and
Scream
Girl go 'head and
Scream (You love it, you love it)

Tonight I'll take good care of you
Girl go-girl go
Scream
Girl go 'head and
Scream
Oh you 'bout to
Scream (You love it, you love it)
Tonight I'll take you to the moon
