

Wild Rose

[Jim Reeves](#)

A rose should be where the sun shines through
Not where the wine is red and the smoke is blue
A rose should be blooming in the light
Not in a rendezvous, blooming in the night
And you are a rose, maybe a wild rose
But I'll be proud to take you home for all to see
To stand with me, where the candles glow
With orange blossoms all around the wild, wild rose
And you are a rose, maybe a wild rose
But I'll be proud to take you home for all to see
To stand with me, where the candles glow
With orange blossoms all around the wild, wild rose
