

# This Is for Real

## Motion City Soundtrack

I've got emotion dripping out my pores  
And I thought I would let you know  
You are the night light ripping through my wicked world  
How you make it sparkle and glow Before I lose control  
There's just one thing you should know This is for real, this time I mean it  
I'm coming clean, please don't let go  
I said from the start that you could take it or leave it  
Prefer that you keep it, don't let go  
Don't let go, don't let go I had some nightmares clawing at my skin and bones  
I nearly did explode  
You smoke the demons, gave me back my feelings  
Now I am good to go Before my face hits the floor  
There's just one thing you should know This is for real, this time I mean it  
I'm coming clean, please don't let go  
I said from the start that you could take it or leave it  
I prefer that you keep it, don't let go This is the best thing that I've ever had for real  
This is the best thing that I've ever had for real For a physical challenge I'm notoriously born  
Intravenous delivery, electrolytes and more  
Every time it's the same routine  
Out with the bad, in with the clean Before I lose all motor skills  
There's one thing you should know This is for real, this time I mean it  
I'm coming clean, please don't let go  
I said from the start that you could take it or leave it  
I prefer that you keep it, don't let go This is the best thing that I've ever had for real  
This is the best thing that I've ever had for real  
This is the best thing that I've ever had for real  
This is the best thing that I've ever had for real
