

Just Getting Started

Hawk Nelson

We're stepping in the ring and,
Won't let that lady sing
It's over when we say it's over
Been brushing off our shoulders
It's not a twist of fate, we
Choose our own destiny
A trophy or a bruise
Champions never lose
Champions never lose
It's time to show the world what they've waited for
Something like they've never seen before
We're just getting started
Just getting started
Reaching for the stars
We'll raise our colors high
We've come so far
We're just getting started
Just getting started
There's nothing stopping us
Yeah, we're just getting started
Blasting right to the top
Making that needle drop
Do you hear that roaring crowd
Tonight we won't let 'em down
No time to play it safe
We'll set the record straight
This is our walk up song
Everyone's gonna sing along
It's time to show the world what they've waited for
Something like they've never seen before
We're just getting started
Just getting started
Reaching for the stars
We'll raise our colors high
We've come so far
We're just getting started
Just getting started
(Nothing's stopping us)
(Nothing's stopping us at all)

(Nothing's stopping us)
(Nothing's stopping us)
It's time to show the world what they've waited for
Something like they've never seen before
We're just getting started
Just getting started
Reaching for the stars
We'll raise our colors high
We've come so far
We're just getting started
Just getting started
There's nothing stopping us
Yeah, we're just getting started
