

Killer Queen

EMM

Leaving you was the best thing I've ever done
Stronger, smarter and better now that your gone
You stole all of my power and I let you take it
But inside of the nightmare new fire awakened Said it was me
That I wasn't enough
Now I can see
He wasn't worth my love Some boys
Will pretend that
They are special
Irreplaceable
Dumb boys
You should know that
I'm a Killer Queen
All on my own IndÃ©pendant I'm burning brighter
In the valley I'm the forest fire
In the rain I'm the desert fighter
In the dark I'm the midnight rider Every tear that I've cried has become my strength
Every time that I rise I'm becoming great
Every stick, every stone is fueling up the fire
Every brick that you throw is building me up higher Tonight I'm gonna rise
Rise, rise, rise
Tonight I'm gonna rise
Rise, rise, rise
Intro: The Jungle (Extended Album Version Only)
Don't you leave me babe
Don't you leave me babe, babe The jungle will know my name
The jungle will know my name
The jungle will know my name
The jungle will know my name Intention in every breath, woah,
Born of blood and fire
Suspended over the edge, woah,
Coming down to the wire Burn these bridges burn these mirrors
Burn up all of my fears
Burn them till there's no more tears
Dried up like all these years Do you even know what love feels like? (Burn, baby!)
