

Saturday Night

Aaron Carter

Everywhere I go somebody I know
Wants to come and kick it with me
(Hey)
Saturday night and we're gonna have a party
(It's a party y'all)
Everywhere I go somebody I know
Wants to come and kick it with me
(Hey)
Saturday night and we're gonna have a party
(It's a party y'all)
Tonight is the night
Feelin' right
Smell a party
I'm callin' my boys to come roll with me
End of the week
Word on the street
The strip is crawling
With honeys that can't get enough of me
There is something in the air
Come with me we can go anywhere
Everywhere I go somebody I know
Wants to come and kick it with me
(Hey)
Saturday night and we're gonna have a party
(It's a party y'all)
Everywhere I go somebody I know
Wants to come and kick it with me
(Hey)
Saturday night and we're gonna have a party
(It's a party y'all)
Loose track of time
It's gonna fly
Baby don't have no worries
Cause there ain't no better place to be
It's after midnight
Everything's going right
You're the only one for me
I'm your only invitation to the after party
There is something in the air

Just take my hand we can go anywhere
Everywhere I go somebody I know
Wants to come and kick it with me

(Hey)

Saturday night and we're gonna have a party
(It's a party y'all)
Everywhere I go somebody I know
Wants to come and kick it with me

(Hey)

Saturday night and we're gonna have a party
(It's a party y'all)
Bump, bump, chicka, chicka
Bump, bump

(Yeah)

Blastin' music as I'm cruisin' in my truck, yeah
With my peoples and I'm doing what I want
(What I want)

Have a party and get up in the stuff
It's a Saturday night in fact it's a party day
Got no worries so party like it's a holiday

Hey, hey

Now we gotta go

Hey, hey

What you say

Everywhere we go it's on Saturday night, yeah
We will party all night long Saturday night, yeah
Everywhere I go somebody I know
Wants to come and kick it with me

(Hey)

Saturday night and we're gonna have a party
(It's a party y'all)
Everywhere I go somebody I know
Wants to come and kick it with me

(Hey)

Saturday night and we're gonna have a party
(It's a party y'all)
Everywhere I go somebody I know
Wants to come and kick it with me

(Hey)

Saturday night and we're gonna have a party
(It's a party y'all)
Everywhere I go somebody I know
Wants to come and kick it with me

(Hey)

Saturday night and we're gonna have a party
