Summertime

Lowell

I'm not getting cold,
Until the sun is up
Rain my pillow
But that second cold
And I don't wanna tell you the stories
I don't wanna talk about dreams
I just wanna fall my eyes
Into my sleepy seaBaby when the sun is up
Baby when the sun is up
Can you feel the fresh ??
I'm lying on a spotless beat
Shame it's just you and me
In the summertimeAnd over now a ??
By the look you say
I didn't think from long
Cold amnesiaBaby when the sun is up
Baby when the sun is up
And I can't wait another day
The door is open, I'm going straight to it
Can I call you over here
I can look, can look, can look!
Baby when the sun is up
Baby when the sun is up
Baby when the sun is up
Baby when the sun is up
