The Finer Things In Life

Donell Jones

Hey, yo, D
Let's take it back
Let's take it back
Baby-girl, I wanna make a toast to new beginnings
(You plus me)
We pull a winnin' combination
Them other dudes before me never knew what they were doin'
(Fun like that)
Make and losin', I'm just sayin'
(They never stepped up)
To give you the best of anything
Like you deserve, ooh, girl, yeah
(Their loss is my gain)
They never felt your pain 'cause they don't know
A woman's worth like I do
So many disappointments, you've had it all
I know someone who knows how to treat you right
All those heartaches are over, now that I'm here
I'm gonna show you the finer things in life
Girl, I'm talkin' 'bout vacations on private islands
(Personal)
Chefs provided, how do you like that?
And your shoppin' game is gonna be on full display on
([Incomprehensible])
And Rodeo, envy to the grip would make it
(They never stepped up)
Ooh, ooh, baby, to give you the best of anything
Like you deserve, ooh, ooh, girl
(Their loss is my gain)
They never felt your pain 'cause they don't know
What a woman is worth, ooh, like I do
So many disappointments, you've had it all
I know someone who knows how to treat you right
All those heartaches are over, now that I'm here
I'm gonna show you the finer things in life
(They never stepped up)
To go the extra mile to make you feel loved and wanted
Like all women wanna feel
(Their loss is my gain)

See, wait, dear, it ain't the same old same
I'm gonna show you the finer things
So many disappointments, you've had it all
I know someone who knows how to treat you right
All those heartaches are over, now that I'm here
(You ain't gotto worry no more, baby, I'm right here)
I'm gonna show you the finer things in life
So many disappointments, you've had it all
I know someone who knows how to treat you right
(The cryin' is over, baby)
All those heartaches are over, now that I'm here
(It's a new beginning, yeah)
I'm gonna show you the finer things in life
Let's take it back
