Fire

Firewind

In the aftermath, everything will clear
But the ones who stand have no fear
Can you feel the fire that burns inside?
Can't live without it, it's something I can't denyLiving my life in fire, burning in sweet desire
Want to get higher and higher, I don't mind the consequences
Living my life in fire, burning in sweet desire
Want to get higher and higher, I want to live forevermoreBurning fire in my soul
Flames grow higher more and moreWe're running out of time, is there an answer?
Only the fire remains forever it burns
My desire, it burns inside of me
I can't live without it, it's something I just can't hideLiving my life in fire, burning in sweet desire
Want to get higher and higher, I don't mind the consequences
Living my life in fire, burning in sweet desire
Want to get higher and higher, I want to live forevermoreBurning fire in my soul
Flames grow higher more and moreBurning fire in my soul
Flames grow higher more and moreLiving in fire, burning desire
Want to get higher and higher
Living my life in fire, burning in sweet desire
Want to get higher and higher, I want to live forevermoreBurning fire in my soul
Flames grow higher
Burning fire
Burning fire forevermore
