

Take It All

[Sarah Macintosh](#)

Take one step
Move away and don't look back
You said I Look a lot like Your lost child
Cause I give up Gonna lay this body down
No, I can't believe that you choose to hang around

Ohhh Ohhh You can take it all
Ohhh Ohhh You can take it all Just give up

Just give up I will give those burdens back
You said I Am Your safe and rescued child
Cause I give up Gonna lay this body down
No, I can't believe that you choose to hang around

I will be found
I will be found I will be found In You
