

She Used to Say That to Me

[George Strait](#)

Let's take a rest
Your kisses take my breath
You are the best
It's never been like thisShe used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to meIt thrills you so
When she whispers soft and low
Please hold me tight
I need your love tonightShe used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to meI'm yours, she sighs
And she means it at the time
But someday she'll go
If you're wondering how I knowShe used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say thatShe used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to me
She used to say that to me
