

# Here We Are At Last

## Barbra Streisand

Here we are at last  
Children in the dark  
Running from the past  
Into the unknown Secrets from the heart  
Promises we make  
Lips that never part  
Until the dawn breaks I can't remember feeling this familiar  
I see myself becoming his  
It frightens me to learn  
That love is... Finally here at last  
No place left to hide  
Too powerful to fast  
To keep it inside Everything's so new,  
So innocent, so true  
We're reaching for that star,  
'cause darling, here we are  
Here at last [instrumental] I can't remember feeling this familiar  
I feel myself becoming his  
It strengthens me to finally see that Love is here at last  
No place left to run  
The actors have unmasked  
The play has begun Every moment true  
Each day for lovers who  
Have never come this far  
But darlin' here we are  
Here at last  
Here at last...
