

Nuff Said

Tommy Brandt

Verse 1

he lived in a shack in the back woods and hunted by the light of the moon
scuffed up tony lama snake boots a modern day daniel boone
then one day some people came to run him off his land
but smith and wesson showed them he was more than just a manChorus
he was tough as nails, strong as wood
lived the way that every man should
had a heart of gold, a thoroughbred
he made his mamma proud, nuff saidVerse 2

twenty four Willy joined the war after nine eleven took his dad
on the front line of that battle field, never seen a man fight like that
he was down there in that fox hole when the captain hit the ground
Willy was the hero as the bombs came falling downVerse 3
in a black book written in red the greatest story that's ever been told
about a man who died hanging on a cross two thousand years ago
some say that it ended when he drew his final breath
but I know he has risen he's alive and well
