

# Hands & Feet

Keri Hilson

Go, what's up? Now if you see a daddy boy point him out  
If he can get it up, I can put it down  
And I can put it down, betcha I can put it down Watch me  
Usually it's you checking me but I ain't gonna lie tonight  
Got my eye on you, both eyes on you And I got half a mind to just cross the line  
But the other half is wondering baby could you come through?  
I wanna see what it do Can you pick me up like a real bad habit  
Flip me over like I'm acrobatic?  
We're both sick of playin' hard to get  
Read my lips, I'm ready to go I keep thinking about the things you told me  
I'm thinking that you need to show me  
Don't know if you could back it up  
But two things I know for sure Boy you got big feet and you got big hands  
So I already know what's up in your pants  
Betcha get that from your daddy  
Betcha get that from your daddy Boy I like your sway and I dig your style  
So you know big things is 'bout to go down  
Betcha get that from your daddy  
Betcha got that thing from your daddy I ain't ask for nothing, I ain't ready to give  
Im'a need you to dig real deep  
I'm gonna go all out, I wanna go all out Im'a light switch ya and I already know you can turn me on  
Lemme see if you can turn me out  
I wanna see what you 'bout Can you pick me up like a real bad habit  
Flip me over like I'm acrobatic?  
We're both sick of playin' hard to get  
Read my lips, I'm ready to go I keep thinking about the things you told me  
Watch out now, you don't know me  
Don't know if you could back it up  
But two things I know for sure Boy you got big feet and you got big hands  
So I already know what's up with your pants  
Betcha get that from your daddy  
Betcha get that from your daddy Boy I like your sway and I dig your style  
So you know big things is 'bout to go down  
Betcha get that from your daddy  
Betcha get that from your daddy If you see a daddy boy point him out  
If he can get it up I can put it down  
I know how to put it down, I can put it down  
So let me put it down, betcha I can put it down Now if you see a daddy boy, point him out  
If he can get it up I can put it down

I know how to put it down, I know how to put it down  
So let me put it down, let me put it down Boy you got big feet and you got big hands  
So I already know what's up with your pants  
Betcha get that from your daddy  
Betcha get that from your daddy Boy I like your sway and I dig your style  
So you know big things is 'bout to go down  
Betcha get that from your daddy  
Betcha get that from your daddy Uh, yeah, you heard the saying  
I just wanna know if it's true  
Uh, JQ, Danger  
Yours truly Keri
