

# Radio

## Girlicious

I was wondering if I could take you off somewhere  
Me and you alone  
Doing things we probably not supposed to  
I wanna get close to you And then grab the both of your hands, put them round my waist  
We'll start slow dancing  
While the disc jockeys playing our song  
I'll give it to you all night long, ooh yeah I'll let down my hair, take off all my clothes  
Up and down the stairs till we end up on the floor  
It's just me, you and the radio, me, you and the radio If you touch me there I might lose control  
I hope you ain't scared to let your body go  
It's just me, you and the radio, me, you and the radio Just give me an instrumental  
A sexy beat that makes me move then I'ma be on you  
I hope you're ready cause this feeling is strong  
And you know that it turns me on I'll let down my hair, take off all my clothes  
Up and down the stairs till we end up on the floor  
It's just me, you and the radio, me, you and the radio If you touch me there I might lose control  
I hope you ain't scared to let your body go  
It's just me, you and the radio, me, you and the radio  
Talk to em now Now turn you phone off cause we in the zone now  
I'm gon' take my clothes off, we gon' break it on down  
Me, you and the R A D I O, I know that you're ready for me  
I'm gon' jump on it, you just gotta keep it steady for me And when my jam hit I'm gon' have it  
[Incomprehensible]  
I'm gon' do the damn thing, I hope you can handle it  
Got a couple candles lit, couple bottles of that 'Trone  
Promise I won't do you wrong when that DJ play my song, it's gon' be on I'll let down my hair, take off all my  
clothes  
Up and down the stairs till we end up on the floor  
It's just me, you and the radio, me, you and the radio If you touch me there I might loose control  
I hope you ain't scared to let your body go  
It's just me, you and the radio, me, you and the radio  
It's just me, you and the radio, me, you and the radio
