

This Is Not a War, No Winners No Losers

Lacrosse

You've been away for so long
or maybe it was me
lately I don't recognise myself
but leave me something good
all good I know what's happening you're afraid to let go
now I swear if you just believe
I'll be there to ease the fall
now I swear if you just believe
(hoo hoo)
I'll be there to ease the fall I'm missing you,
with every breath
you make my world,
beautiful
so much hurt in this world
all I need is you
only you I know what's happening you're afraid to let go
now I swear if you just believe
(whoo hoo)
I'll be there to ease the fall
now I swear if you just believe
(whoo hoo)
I'll be there to ease the fall
to ease the fall around the
corner from this bar
or in the galaxy far away
the years are passing by
and we will never grow old and die
around the
corner from this bar
or in the galaxy far away
the years are passing by
and we will never grow old and die I will stick by your side
I will stick by your side
this is no war
this is no war
this is no war
this is no war this is not a war, there's no winners and no losers
this is not a war, there's no winners and no losers (instrumental)
no war, no war

no war, no war

no war, no war

no war, no war
