Call of Dagon

Therion

From the lonely stars beyond the verge of universe
A sound is echoing, call from another world
Lights from Sirius will take your from oblivion
(Dagon is here again)When you watch the sky you feel a longing for the stars
Enter the limitless answer the call you hear
When you take the step to free yourself from modern life
(The sky will shine again)(Call of dagon)
The deep one is calling you
(Call of dagon)
Hear the night sky sing(Call of dagon)
The deep one is calling you
(Call of dagon)
Hear the night sky sing(Call of dagon)
It's the sound of universe
(Call of dagon)
Somewhere in your drems(Call of dagon)
It's the sound of universe
(Call of dagon)
Somewhere in your dremsDagon sing
Star Goddess
Sothis dance
Dagon sing
Star Goddess
Sothis dance
