

# Honey And Sulphur

## Cradle Of Filth

So potent was the star under which I was born  
That I have done what no one in the world has done  
No one can ever do Praeclarum custodem ovium lupum  
Praeclarum custodem ovium lupum All Saints Day, the taint of rain  
Blood and mud and thunder all the same  
To those who close their ranks to Gille's men Bricqueville, Prelati and De Sille  
Creatures of the dark creeping  
Up and down the countryside  
Little angels out to pastime once again Torture garden rules of thumb apply  
To sacred flesh and the naked eye  
Golgothic, this erotica  
Stinking of honey and worse, sulphur So black was the magic in this tragical kingdom  
That the superstitions grew  
Wise to the wolves that surprised their children  
Gagged in sacks and dragged back to Tiffauges  
It's roads now home to a beautiful stranger  
Lifting her veil, spinning her lies  
Tender eyes, never ending danger It grows  
A rose that chose death for it's bed muck  
Prickles in wait thanking her spies  
Trickling thighs her only hiccup And though she walks the forest trails  
She's far from innocent or frail  
She leads them down the path  
Where darkness dwells That night is rife with celebration the tower sings  
Where so much foul illumination strikes a lighthouse for the things  
That slither and slather at the border of the pentagram  
Mid sour dreams, a beauty pageant for the gathering damned  
Of slaughtered lambs and tortured screams Torture garden rules of thumb apply  
To sacred flesh and the naked eye  
Golgothic, this erotica  
Stinking of honey and worse, sulphur So black was the magic in this tragical kingdom  
In this castle of loup garou  
When moonstruck veins inflamed, deranged on  
A parcel of victims now tied to Tiffauges  
Engorged on the hordes of the anorexic  
Cherubim forced, naked and blind  
A holocaust mind designed their exit A libertine so grim  
Sometimes tore them limb from limb  
Slitting their throats, pissing on graves

Jesus saves but the devil made him Praeclarum custodem ovium lupum

Praeclarum custodem ovium lupum

Praeclarum custodem ovium lupum

Praeclarum custodem ovium lupum
