Bar Song

Rude Buddha

I went out last night
It was a night that i can't even remember.
Me and my boys we was drinkin' heavy
Then you walked by
Like a tide in the early early mornin'
Set up shop right next to me

So i said set me off
I'm like a rocket that can never get high
And I'll take my chances with another long island iced tea
Set me off
I'm like a rocket that can never get high
And I'm straight or on the rocks it don't matter much to me

So here's another round
Be sure to pick me up at the lost and found
Cause i can't find my way
Cheers to the crowd
Take the time to sing with us out loud
It's a bulletproof way to say we got what it takes

So i said set me off
I'm like a rocket that can never get high
And I'll take my chances with another long island iced tea
Set me off
I'm like a rocket that can never get high
And I'm straight or on the rocks it don't matter much to me

But if you think you can get to know me better
I don't think so(oh oh)
Cause her games are like ice
In stormy stormy weather
They're starting to show

So i said set me off
I'm like a rocket that can never get high
And I'll take my chances with another long island iced tea
Set me off
I'm like a rocket that can never get high
And I'm straight or on the rocks it don't matter much to me
