

# Try Your Best

## BRS

I can't do it any quicker  
I don't want it any slicker  
As far as the eye can see  
Is miles and miles of icy seaSo try your best  
And think about it later  
Or you will never knowI don't feel fear anymore  
But I can't risk getting mauled  
As far as the ear can hear  
The wave is coming loud and clearSo try your best  
And think about it later  
Or you will never knowSo try your best  
And think about it later  
Or you will never know  
Which way your life could go  
And you'll know when you knowSo try your best  
And think about it later  
Or you will never know  
Which way your life could go  
And you'll know when you know
