

# Break the Chain

## Gene Loves Jezebel

It's just an illusion, a trick, a trick of the light  
What you now see is really out of sight  
It's dark, it's evil, possessive and kind  
Something that you give, keeps me alive Both hands burnin', burnin' so bright tonight  
And my world keeps turnin', turnin' inside out And I can't break the chain  
I've gotta break the chain  
I'm trying to break the chain  
God, help me break the chain  
Alright I'm winnin', I'm losin' before I start  
Pull myself together as I fall apart  
I'm wise, so foolish, perceptive and blind  
Somethin' that kills, keeps me alive Both ends burnin', burnin' so bright tonight  
And my world keeps turnin', turnin' inside out And I can't break the chain  
I've gotta break the chain  
Please help me break the chain  
I wanna break the chain Break the chain  
Break the chain chain chain chain  
Break the chain  
Do it, do it There's no rhyme, no reason to what I do  
I just live my life before I lose  
I give, I take, I throw it all away  
I pick myself up and I start again Both hands burnin', burnin' so bright tonight  
And my world keeps turnin', turnin' upside out And I can't break the chain  
God, help me break the chain  
I've gotta break the chain  
Please help me break the chain Break the chain  
God, help me break the chain  
Break the chain  
God, help me break the chain Break the chain  
Break the chain  
Break the chain  
Break the chain
