About Midnight

Sarah Kelly

At about midnight I'll call
At about midnight I'll call out your name
I need you beside me
Through these seasons of changeAt about midnight
Awaiting the dawn
I'll find contentment
Singing your songHere in the valley
Shadows lead the way
Where the past meets today
Where the past meets todaySeasons come and they go
Seasons come and they go like the night
Because you are with me
Things will turn out alrightAt about midnight
Awaiting the dawn
I'll find contentment
Singing your songHere in the valley
Shadows lead the way
Yes I know that you're with me nowI don't understand this path I'm on
Like I'm looking down at the sun
All turned around again
All turned around againAt about midnight
Awaiting the dawn
I'll find contentment
Singing your songHere in the valley
Shadows lead the way
Where the past meets today
Where the past meets today
Where the past meets today
Where the past meets todaySo at about midnight I'll call
At about midnight I'll call out your name
