Over Now

NEEDTOBREATHE

Lift up your eyes girl, I know you?re broken
Just like the same war that you never knew
Your way is to fall just like before you
But the way isn?t long and your almost there
There?s a feeling that you won?t make
All you have in store
This time is just a season, you deserve much more

Lift up your head, look out the window
Cause it?s almost over now
Take back the time that your fear has stolen
Cause it?s almost over now

Don?t let it it get you caught in the tunnel
The end is only a few steps away
There?s a feeling of resistance
You can?t seem to fight
This time is just a season
You can make it right

Lift up your head, look out the window
Cause it?s almost over now
Take back the time that your fear has stolen
Cause it?s almost over now

Your eyes open, your heart clean, but are you lookin
To be free

Lift up your head, look out the window
Cause it?s almost over now
Take back the time that your fear has stolen
Cause it?s almost over now
It's almost over now
