Over

Ashanti

Can't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
So it's over babe, it's over babeWhen I met you, I knew you would be the one for me
'Cause lookin' at you had me feelin' kinda crazy
And what you asked I almost did it automatically
But it was nothing compared to the joy you gave meAlthough I know that what we had wasn't perfect babe
We fooled around, but see, back then it didn't phase me
I thought by stayin' tryin' to change you would be worth it babe
But now I see that tryin' to change you only change meAll these tears and all of your lies
All these years and now we're sayin' goodbye'
It's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeNow I'm thinkin' that I never shoulda dealt with you
All your screamin' and this yellin' that we go through
Rainin' late at night, I'm sittin' waitin' up for you
Just to tell you how I hate who you turned intoSee, ain't no way I'm gonna sit and take this shit from you
I'll never play another day of bein' your fool
I wasted all my time on something that just wasn't true
I shoulda known that I could never ever change youAll these tears and all of your lies
All these years and now we're sayin' goodbye'
It's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeI'll never forget what you did to me
So I'm gone, I'm leavin', leavin' baby
I'll never forget what you did to me
So I'm gone, I'm leavin', leavin' babyWhenever ya see me, don't even speak
I'll never forget what you did to me

Whenever ya see me, don't even speak
I'll never forget what you did to meCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeCan't believe that it's over baby
But every bruise on my heart, you gave me
See we tried, but we'd fight, then we cried
Now it's over babe, it's over babeI'll never forget what you did to me
So I'm gone, I'm leavin', leavin' baby
I'll never forget what you did to me
So I'm gone, I'm leavin'
