

Power in the Cross (feat. Derek Johnson)

Jesus Culture

We all stand amazed.
In awe of amazing grace
The divide has been erased, we thank You
All sin is washed away. You alone have saved the day.
We are forever changed, we thank You
Let every heart, every tongue
come sing of Your redemption

There's power in the Cross
where You proved Your love
The only sacrifice strong enough to save us.
You rose in victory to let the whole world
see Love has made a way.
Hope is never lost
There's power in the Cross

No we are made alive,
in freedom like a fire
Burning with one desire we thank You
We will spend all our lives
filled with the hope of Christ
who paid the final price, we thank You

There's power in the Cross
where You proved Your love
The only sacrifice strong enough to save us.
You rose in victory to let the whole world
see Love has made a way.
Hope is never lost
There's power in the Cross

Strong enough to save us
strong enough to save us
strong enough to save, strong enough to save

There's power in the Cross
where You proved Your love
The only sacrifice strong enough to save us.
You rose in victory to let the whole world
see Love has made a way.

Hope is never lost
There's power in the Cross
