The Other Side

From Zero

Yes, I'm the one you're waiting for
Yes, I'm the one, yes, I'm the one
Who decides when times aren't right?
Well, who's left out? Well, I'm left out
Don't try, just leave it, it's all bitter change
Can't we stay the same and
Give it all back to fall
Setting the course for an ever after
Standing tall, be my all
Setting the course for an ever after
I wanna be, I wanna be
I'll never walk alone when the time is on my side
What comes around, it goes around
In time, in time
She's the only time spent right
Let's talk it out, we'll talk it out
'Cause I'm the one you're waiting for
Yes, I'm the one, yes, I'm the one
Don't try, just leave it out, it's all bitter change
Can't we stay the same and
Give it all back to fall
Setting the course for an ever after
Standing tall, be my all
Setting the course for an ever after
I wanna be, I wanna be
I'll never walk alone when the time is on
I don't believe it's right and all the answers will
Never keep me warm at night when I am by myself
Back on the run, enraged with the other side
Deliver us all from dreams that I want to hide
Back on the run, it's safe just to be alive
Consider the one that's left on the other side
Back on the run, enraged with the other side
Deliver us all from dreams that I want to hide
Back on the run, it's safe just to be alive
Consider the one that's left on the other side
I wanna be, I wanna be
Everything else that grabs when you're under
I'll always win alone, let alone

Give it all back to fall
Standing tall, be my all
Setting the course for an ever after
I'll never be, I'll never be
I'll never walk alone when time is on my
I don?t believe in fright
You know the others will
Never keep me warm at night
When I am by myself
Back on the run, enraged with the other side
Deliver us all from dreams that I want to hide
Back on the run, it's safe just to be alive
Consider the one that's left on the other side
Back on the run, enraged with the other side
Deliver us all from dreams that I want to hide
Back on the run, it's safe just to be alive
Consider the one that's left on the other side
