

# The Pursuit Of Happiness

## Procol Harum

One into one won't go  
Two out of three don't know  
Time and tide in man's affairs  
Trouble always comes in pairs Wonder where this picture went?  
What we got ain't worth a cent  
What we got ain't worth a damn  
Someone's screwed this master plan The pursuit of happiness, it's a common goal  
The pursuit of happiness doing what we're told  
The pursuit of happiness to the very end  
It goes 'round and 'round and 'round and 'round again Bite the bullet in the dust  
Got to take their word on trust  
No use counting down your prayers  
All God's children running scared No use howling at the moon  
Planet Earth is going soon  
Starving children stand on line  
Living now on borrowed time The pursuit of happiness, it's a common goal  
The pursuit of happiness doing what we're told  
The pursuit of happiness to the very end  
It goes 'round and 'round and 'round and 'round again The pursuit of happiness, it's a common goal  
The pursuit of happiness doing what we're told  
The pursuit of happiness to the very end  
It goes 'round and 'round and 'round and 'round again  
'Round and 'round and 'round and 'round again The pursuit of happiness  
The pursuit of happiness  
The pursuit of happiness  
The pursuit of happiness  
It goes 'round and 'round and 'round and 'round again
