Chorus:
All day talking that, talking that mess
All day talking that, talking that mess
All day talking that, talking that mess
Say what you want! ....
All day talking that, talking that mess
All day talking that, talking that mess
All day talking that, talking that mess
Say what you want! ...
Yo, my flow is so criminal
I'm busting it up, can you hear me now?
I'm up in the party, I'm freaking out
It's three in the morning on cloud nine, see me rocking now out of
The lights is on, turn 'em all
Yeah, I'm a monster, you ain't scared of nothing
I'm backing it up while you're busy fronting
When the talk goes sick we'll be talking
All day talking that, talking that mess
All day talking that, talking that mess
All day talking that, talking that mess
Say what you want! ...
All day talking that, talking that mess
All day talking that, talking that mess
All day talking that, talking that mess
Say what you want! ...
Look at you down so minimal

You wanna be fly but you're living low
I'm the bbbboss cause I said so
I'll be rapping the game up in the chokehold
You keep talking ease, but I'm steady getting paper

I got pounds of the money, pounds, pounds of the money bag!
big up to all my haters!
All day talking that, talking that mess
All day talking that, talking that mess
All day talking that, talking that mess
Say what you want! ...
All day talking that, talking that mess
All day talking that, talking that mess
All day talking that, talking that mess
Say what you want! ...
you can talk the old blue as the sky
you can see success right through my eyes
Haaters..
Haters, haters, haters, haters, hater
Going down, down, down
Look at, look at you!
Look at, look at you!
Look at, look at you!
Free styling!
Look at, look at you!
Look at, look at you!
Look at, look at you!
All day talking, talking that mess
All day talking, talking that mess
All day talking, talking that mess
say what you want! ...
All day talking, talking that mess
All day talking, talking that mess
All day talking, talking that mess
say what you want! ...
