Resolution

Phil Joel

Pick up your guard
Here comes the smack down
I got ya back so dont ya flinch
No, dont ya back down now
The fights already been won, push backBreak me to make me
Tell me straight, let me have it
Dont you fake me out
How else am I gonna find out?This is no new school revolution
There is nothing new under the sun
Youre not the only one, soHold me to my resolution
And I will do to you the same
A strand of three chords
Is not easily broken
Together we are stronger
We will never stay the sameThis is gonna hurt
Maybe more than a little
The wounds of a friend
Always strong never brittle now
You wont be coming undoneThis is no new school revolution
There is nothing new under the sun
No, youre not the only one so
Keep movin, stick together
Keep your head down
