

# Silverstar

## Beseech

One with the stars  
A star is calling inside of me  
Embraced by a flame  
Eternal flames inside of me  
Caressed by a light  
Silver light inside of me  
Deep inside of me...In a distance I see,  
My sacred funeral  
Rivers of tears, in family eyes  
They scream out my name, and wish me heaven  
But I feel the grace  
Far away...  
I am the heartless one,  
I'm black inside  
I am the silverbound, the mighty one  
I am the evil one, I love the dark  
You are my spellbound soul, and you will fade away  
In the stars I will find, a mystical land  
Nocturnal grace, close to my heart  
I will forever, trust in the stars  
Trust in the silver, or else I will fade away
