Get a Good Thing

Jesus Jones

Oh we had some magic and used it all
There's a tinge of regret now
But not what you'd call real sorrow
We skipped the decline and when straight to the fall'Cos I'd rather be damned than let this go
And I'd rather be damned 'cos I knowYou've gotta get a good thing when you see it
You've gotta get a good thing when you see itOh we let our lives slip just for a while
It took all we had but it made you smile tooAnd I'd rather be damned than let this go
And I'd rather be damned 'cos I knowYou've gotta get a good thing when you see it
You've gotta get a good thing when you see itAnd I'd rather be damned than let this go
And I'd rather be damned 'cos I knowYou've gotta get a good thing when you see it
You've gotta get a good thing when you see it
You've gotta get a good thing when you see it
You've gotta get a good thing when you see it
