

Shangri La

A*Teens

[Dhani:]

We got it going on

I can't tell right from wrong

You can say that when we kiss

We've got lip-synch[Amit:]

I know it's getting late

But like a twist of fate

My clock stops when I'm with you[Marie:]

Though time is ticking way too fast

We can make this moment last

I don't want the night to end[All:]

I can take you to my hide-a-way

My Shangri-la, my Shangri-la

You and I will see the break of day

In Shangri-la, in Shangri-la[Sara:]

C'mon let's roll the dice

The look upon your eyes

Says your mind's made up

You don't have to think twice[Marie:]

So what's it gonna be

Will there be you and I

Wanna try to make you see[Sara:]

That time is ticking way too fast

We can make this moment last

I don't want the night to end[All:]

I can take you to my hide-a-way

My Shangri-la, my Shangri-la

You and I will see the break of day

In Shangri-la, in Shangri-la[Marie:]

You really make my head spin

Don't know where you end and I begin

But it's not like I care[All:]

I can take you to my hide-a-way

My Shangri-la, my Shangri-la

You and I will see the break of day

In Shangri-la, in Shangri-laI can take you to my hide-a-way

My Shangri-la, my Shangri-la

You and I will see the break of day

In Shangri-la , in Shangri-laI can take you to my hide-a-way

My Shangri-la, my Shangri-la
You and I will see the break of day
In Shangri-la, in Shangri-la
