In the Sky

Asobi Seksu

I set my past on fire
I cant take this any more
Maybe I'll forgive you
but this is where it endsWe grew up just in time
but I cant live like this
We can fix ourselves in time
we just grew up so wrong
Nothing dares to stay
if you leave it this wayIn a view upon my eyes
I can see how much I fall
Maybe I'll forget you
but this is where it ends
Just one more lost cause
cross it off your list
We can fix ourselves in time
we just grew up so wrong
Nothing dares to stay
if you leave it this way
