

Work It Out (Radio Edit)

Tye Tribbett

Doesn't matter what the problem
God (will)
Work it (out)
Any type of situation
He (will)
Work it (out)
I don't have no doubt
God (will)
Work it (out)
Work it, work it (out)
Work it, work it, work it (out)
Work it, work it (out)
Work it, work it, work it (out)
Winter Spring Summer Fall
Trouble keep coming outta nowhere
Doesn't have respect at all
Somebody going through it somewhere
Wonder what you gonna do
Wonder if you gonna make it
Wonder how long I'll take
And when you ever get through
Can't see the light of day nowhere
The enemy tries to make you feel like pain will be (always)
But you know like I know that trouble will never last (always)
So hold your head up high
God is on your side
And he loves you
And he cares
He's so faithful (never fails)
Doesn't matter what the problem
God (will)
Work it (out)
Any type of situation
He (will)
Work it (out)
I don't have no doubt
God (will)
Work it (out)
Work it, work it (out)
Work it, work it, work it (out)

Work it, work it (out)
Work it, work it, work it (out) Seem like everybody else
Doing so much better than you
They just got it all together
And you just tryna get through you
Don't see no results
Not laughing, this is not a joke
Cos I'm telling you if God don't come through with something soon I might... I don't know The enemy tries to
make you feel like this will be (always)
But you know deep down that you gonna come out of this (someday)
So hold your head up high
God is on your side
Hold your head up high
God is on your side
And he loves you
And he cares
He's so faithful (never fails) Doesn't matter what the problem
