

Nervous System

Killing Joke

Everybody's looking for a life looking for one more escape
beat the other man get your money get your car it's a bit of a joke
You're walking down the street you see their faces see their instincts they're picking it up
Everybody's looking for life to be destroyed no chance Nervous system I don't like it
Nervous system I don't like it
I'm getting out of this system You'd better learn what they say
better live life away like an average man
????? country can't do what you want that's funny
Don't give me all the bullshit you've designed for your perfect ???
We know how you do it how you do it mind psychology Nervous System I don't like it
Nervous system I don't like
I'm getting out of this system Every year I go on holiday
Every day I live routine
9 til 5 9 til 5
living by the clock because they tell me
Living by the clock because they tell ya Everybody's looking for a life looking for one more escape
Beat the other man get your money get your car
it's a bit of a joke
Everybody's looking for life to be destroyed, no chance. Nervous system I don't like
Nervous system I don't like it
I'm getting out of this system
