In Dreams

John Waite

In my life I've seen such things
That I wish I had not seen
But through your eyes I can let it go
When you're lying here with meSunshine knocking on my window
Couldn't wake me from this dream
We dream 'cause baby anywhere the wind blows
I will follow you it seems, that in my life, I still believe in dreamsWhere you are, is where I'll be
It's all that really matters to me
The world out there, hey can kiss my ass
As long as I've got you I'm free, freeSunshine knocking on my window
Couldn't wake me from this dream
We dream 'cause baby anywhere the wind blows
I will follow you it seems, that in my life, I still believe in dreamsThe world out there, can kiss my ass
As long as I've got you I'm free, freeSunshine knocking on my window
Couldn't wake me from this dream
We dream 'cause I don't care which way the wind blows
I will follow you it seems that in my life I believe
'Cause in your life you believe in dreams
